

# CALL CENTER SUPERVISOR

software that simplifies and accelerates your daily tasks

The screenshot displays the 'gloCOM - Supervisor Panel' interface. The top navigation bar includes 'Supervisor', 'Queues', 'Wallboard', 'Agents', 'Graphs', 'Agent Inbound Stats', 'Queue Calls', 'Inbound Calls', 'Outbound Calls', and 'Alerts'. The main area shows a table of agents with columns for Agent Name, Agent ID, State, Time in State, Unique Call ID, Call Direction, Call Type, Call Info, Login Time, and Login Type. A modal window titled 'Agent Info / Actions' is open for Cassey Smith (Agent ID 1004), showing her profile picture, name, ID, and membership in Accounting and Marketing. Action buttons include Listen, Logout, Transfer, Chat, Pause, and Close. A status bar at the bottom indicates 'Logged in agents and extensions: 5'.

# Wallboard

The wallboard module shows your call center's activity clearly! The ability to know what is going on is crucial to call center managers to be able to make on-the-fly decisions and organize for the future. With the wallboard module, you can see the status of every agent and each queue.

## Keep in contact

Inside the wallboard module, a supervisor can simply click on an agent and select the desired function: listen to the call the agent is active with, instant message them, take the call and transfer it elsewhere or log out the agent who forgot to do so when leaving for the day.

# gloCOM Brands

Good branding sets you apart from the competition, improves a company's value, promotes recognition, and makes finding new customers easier. When choosing the right type of branding for your organization, there is no one-size-fits-all solution. This is why we have designed three different branding options for gloCOM.

**gloCOM:** Bicom Systems branded option includes the company's logo and branding.

**Communicator:** A non-branded option that removes all mentions of Bicom Systems. In addition to removing all of the Bicom Systems brandings from the application, users have the option to set the homepage and the help page links, as well as their own company logo via Bicom Release Manager.

**OEM:** Branded according to customers' specifications. This branding option removes all mentions of Bicom Systems and allows the customer to add their brand name, logo, set the homepage and the help page link, change the application name and icon.

# HOSTED or ON-PREMISE

At Bicom Systems, we offer both hosted and on-premise solutions for Unified Communications. When you choose the hosted deployment option, you are relieved of the burden of purchasing and maintaining the hardware. Companies that opt for the on-premise solution have the complete control over all their servers and data.
